-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Art Unit: 1761

1. Claims 9-14 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 09/01/04.

Applicant's contention, that original claims 1-11 were examined in the previous Office action rather than claims 1-14 amended under Article 34, is without merit. Applicant agreed that claims 1-11 were to be examined in the September 1, 2004 response to the written restriction requirement. The Article 34 amendment refers to a PCT application rather than the U.S. application.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rutledge (4,053,964; col. 1, lines 12-13; col. 2, lines 3-5, 14-16, 24-26 and 44-45)

Applicant is referred to paragraph no. 7, Paper No. 102204.

5. Claims 6, 7, 8/1, 8/5 and 8/6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rutledge in view of Fehmerling (3,513,071; col. 1, lines 40-42; Ex. 1 and claim 3).

Applicant is referred to the reasoning set forth in paragraph no. 8, Paper No. 102204.

6. Claims 8/1 and 8/5 are also rejected under 35 U.S.C. 103(a) as being unpatentable over Rutledge in view of Trelease et al (3,773,962, claim 8).

Applicant is referred to the reasoning set forth in paragraph no. 9, Paper No. 102204.

7. Applicant's arguments filed March 28, 2005 have been fully considered but they are not persuasive. Although applicant's claims recite a variety of steps that will achieve applicant's desired results, only one of the recited steps is required according to claim 1. Thus, Rutledge clearly anticipates applicant's broad claim.

Fehmerling suggests thawing in tap water at 58°F or the use of a protease enzyme, e.g. ficin (col. 5). There is no patentable distinction between applicant's thawing temperature of 12°C (53.6°F) and the 58°F tap water used in Fehmerling.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1761

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur L. Corbin whose telephone number is (571) 272-1399. The examiner can normally be reached on Monday - Friday from 10:30 am to 8:00 pm.
